

# NEED A LIFT?

If you're still opening and closing heavy tank & pressure vessel manways the way you've always done it, its time to reconsider your options.

The Revolution Lift™ Electric Manway Lift makes the job easier – and safer – than ever before. In fact, with over a dozen standard safety features like Dual Push-Button Activation, numerous Lockout/Tagout (LOTO) switches, and multiple other refinements since its initial release, the Revolution Lift™ may be the safest electric manway lift in the world.

It allows operators of every size to maneuver big manways – up to 350 lbs. – with ease.

And, of course, every Revolution Lift™ is designed for simple cleaning and sanitation to meet the most stringent biopharmaceutical industry standards.

The newly improved Revolution Lift™.  
Exclusively from HOLLOWAY AMERICA.

Elevating Operator Safety.™
