

WHAT  
WE DO

# **YOURSITE™**

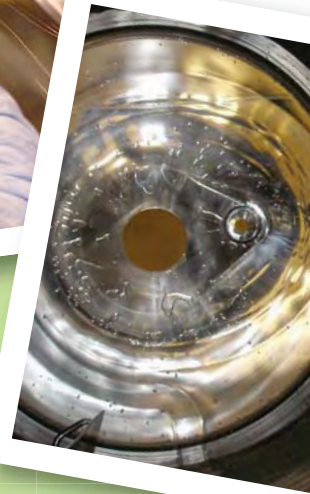

Field Fabrication  
& Field Services

**Extraordinary.**  
*Right Before  
Your Eyes.*

Baffle Modification

## Exceptional *And* Incomparable.

**W**hen your operation requires Field Fabrication and Field Services, make your first call to the company with the experience to claim both.

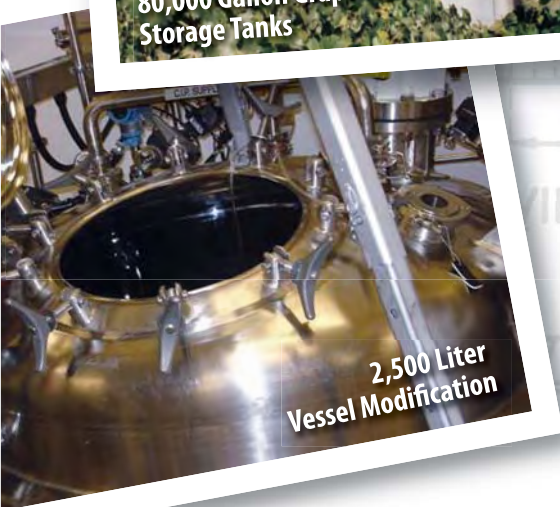

The former **Precision Stainless, Inc.** team has re-grouped as **HOLLOWAY AMERICA**, to provide you the same Precision service and quality but with greater diversification.

Our philosophy – our promise – runs deep within the organization: every repair, every design and modification, every weld, every component, every product we create, every service we perform must possess the HOLLOWAY AMERICA standard of excellence. Period.

# **Factory-Quality** Fabrication and Services Performed At **Your** Location

**HOLLOWAY AMERICA**  
**YOURSITE™ FIELD SERVICES**  
Can Help Your Operation Be More Efficient

Spray Ball Coverage Testing

Vessel Sight Glass /Light Pad Installation

Half-Pipe Installation On-Site

8,000 Liter On-Site Fabrication

## Complete Engineering/Services including:

- Tank, vessel, component, machine design
- Complete documentation Turn-Over Packages (TOPs)
- Finite Element Analysis (FEA)
- Ultrasonic Thickness measurement (UT)
- Positive Material Identification testing (PMI)
- Infrared thermography
- Pressure testing
- Radiography
- Dye-penetrant leak testing
- Custom spray device design and riboflavin testing certification
- Surface finish measurement and certification
- Instrument calibration
- Material corrosion test kits

## Craftsmen

### Certified in the following:

- ASME Section VIII, Div. I "U"
- BPE standards
- National Board "R" repair stamp certification
- API-620 and API-650
- ASME B31.3 process piping
- CE certification
- OSHA training and certification
- CSE (Confined Space Entry) certification
- 3A standards
- USDA and FDA

Special Full Drain Bottom Head One-Piece Machining

On-Site Alcove Expansion Joint Installation

## **Repair, Retrofit Modification, and Replacement** of the following:

- Vessels/tanks, all makes
  - Options include, but not limited to the following:
    - manways, flanges, fittings, dip tubes, asme ferrules, no-foam inlets, baffles, vortex breakers, insulation, outer sheathing, agitation systems, heat transfer surface, inspection ports, light and sightglass assemblies, shell sections, heads, cones, catwalk, ladder and platform assemblies
  - Tank and vessel components
  - Heat exchangers
  - Process skids/modular process systems
  - Valves, instrumentation, controls, pumps
  - Material finishes from 75 Ra to 5 Ra and better
  - Electropolishing
  - New tanks and vessels with capacities up to 1,000,000 gallons
  - 25 years experience fabricating large, on-site tanks utilizing top-first construction methods for safety, factory-quality, and confined-space advantages
  - Custom spray devices
- 
- Gallon Syrup  
Storage Tanks**
- 

## **Preventive Maintenance Programs**

- Proprietary HOLLOWAY VesselWellness™ Program to determine remaining life expectancy of existing tanks and pressure vessels
- 24/7 TURBOSERVE™ Emergency Services usually on your site within 24 hours
- Equipment installation services
- Shutdown and start-up assistance

## **Materials** of Construction

- All Type 300 series stainless steel, AL6XN™\*, Hastelloy™\*, Alloy 20, C-22, C-276, Alloy 200, 400, 600, 601, 625, 800, 825, 904L, 2205, 254SMO, Titanium, Aluminum, Brass, Copper

## **Industries** served

- Pharmaceutical, Biotechnology, Nutraceutical, Food, Beverage, Wine, Cosmetic, Chemical, Fine Chemical, Dairy, Oil and Petrochemical, Pulp and Paper, Semiconductor, Munitions, Utilities, Wastewater Processors, Refrigeration, Architectural and Construction Firms
